I would like to implement my innovative ideas skills and creativity accomplishing the projects to seek a wonderful challenging and knowledgeable career in an organization and also for making a positive contribution to organization.

EDUCATION

Aditya Engineering College

MCA (Computer Applications) CGPA: 7.54

Surampalem, Andhra Pradesh.

May-2024

Aditya Degree College

B.Sc. (Computer Science) CGPA: 7.09

Kakinada, Andhra Pradesh.

July-2022

SKILLS

- **Programming language** Python
 - **python libraries** NumPy, pandas, matplotlib
 - **Databases** SQL
 - **Web Application** Html , CSS , JavaScript concept
 - **Tools** Git, Git hub, Excel, VS code
-

PROJECTS

Hospital Management System(Django)

- . The Hospital Management System (HMS) is a software solution designed to streamline and healthcare institutions by integrating and automating various administrative, clinical, and financial processes.
- The HMS includes modules for patient registration, appointment scheduling, electronic health records (EHR), billing and invoicing, inventory management, and staff administration.

Brain Tumor Detection Using CNN Algorithm (ML).

- Brain tumor detection using machine learning (ML) involves leveraging algorithms and models to analyze medical imaging data, such as MRI or CT scans, for the identification and classification of tumors.
 - The application of ML models like convolutional neural networks (CNNs) to detect patterns indicative of tumors.
-

CERTIFICATIONS

- **Database certification**
 - A **Database Certification** helps to learn and improve my knowledge of databases. It covers how to **store, manage and retrieve data** using the **SQL**.
 - **Python certification**
 - A **Python Certification** helps to improve my skills in python programming . It cover the basics and advance topics and also python libraries .
-

SOFTSKILLS

- Problem Solving and Analytical
- management Critical Thinking
- Skills Leadership and Time
- Effective Communication
